

1. Calcule l'aire de ces carrés. Tu peux quadriller si nécessaire.

Aire de a =cm²
Aire de b =cm²
Aire de c =cm²
Aire de d =cm²
Aire de e =cm²
Aire de f =cm²
Aire de g =cm²
Aire de h =cm²

2. Compare tes résultats avec la diagonale de ta table de Pythagore.

3. Comment fait-on pour calculer l'aire d'un carré ?
