

Sleep tight

Sleep tight

Don't ever dream

Nightmares

Never end

Em – Em 7 – C - Am

Sleep light

Don't ever scream

I'll be there

To hold your hand

Em – Em 7 – C - Am

Hold me tight, don't ever leave

Pain through my fingers

I can never walk alone

I need you to hold my hand

Em – Em 7 – C - Am

Walk alongside me

Some day you will be

Your own dad

G – D – F#m - A

Follow me. Take your time.

Trust yourself. You're not me.

I can never walk alone

I need you to hold my hand

I'm sorry

To tell you that you didn't manage to teach me.

Sorry, Dad, I failed.

Sorry, Dad, I failed.

We have been
through dark days
We're facing
some worries
Together
in some ways

Am – F7+ - C – G7

We wait until
the sun rises

We are sick of all of the lies
We are sick of all of the cries
Can't you read between the lines ?
We are sick of all of the lies

For worse and for better

I know I travelled
Almost everywhere
I try to hide coz' I can't stare
but in my book, pages are turned

Slippin' Away

Slippin' Away

From your gaze

He's gone to desert lands and seas

Don't stand in the way

He's out of the maze

You've got to let him free

I wish I'd been here for you

In the darkest of your days

My friend

You took him away

You vile enemy

Hidden in the **shadows of pain**

We'll find a way

To be the ones at peace

We'll sing anyway

Bawnless

What do you want ?

What do you need ?

What did you mean ?

What are you ... What ?

What do you think ?

Did you miss me ?

Did you think what you just said ?

What did you... what ?

You're so bawnless !

Did you think

That I would

Miss you

Where you were gone ?

Don't you have brains ?

Did you want *this* ?

Shadow of a doubt

Verse 1.

Lying with you every night
 Waking up next to you
 (It) never makes me sad
 How can it be ?
 How can it feel
 So easy ?

Verse 2.

I know that you're not real
 Pictures and video feeds
 How could you make me mad ?
 Should I turn off the TV ?
 You know it's not
 That easy

Caduline

Waking you up
Is getting harder
Now that you're in
This four-wheel chair

Can't forget

How much I love you

Soul stays perfect

Body only decays

Never thought
I could endure this
Never thought
I could love you more

We'll stay connected

You live in me

Stay connected

Live in me

Stay connected

Live in me

Please stay connected

Distance

I can't believe I gave you up.

I can't believe I gave you up.

I can't believe I gave you up.

you were so beautiful

Funny and all.

But I was to messed up

To tell you so.

I can't believe you gave me up.

I can't believe you gave me up.

I can't believe I gave you up.

I was your better call

Fancy and all

But distance hurt us

You know I told you so

DISTANCE SUCKS

I'd like to be with you

The guy who made me me

Alone in my room

There's so much silence

So many cigarette butts

Your mixtape is not enough.

I can't believe we screwed this up

I can't believe I gave you up.

I can't believe I gave you up.

(And) now that we're old and grey

At the end of the way

There's just nothing left

Nothing left to say.
